

SUITE

One integrated suite, four powerful solutions

In today's competitive marketplace, you need a solution that enables you to differentiate, whether that's utilizing the latest innovations or delivering exceptional customer service. With Duck Creek Suite, you'll have the advanced technology needed to meet marketplace demand and achieve a competitive advantage.

Delivering Choice. Reducing Risks.

Our integrated suite includes best of breed billing, claims, policy and rating software that is designed to work independently or via a combined approach to optimize outcomes through digital and data capabilities, streamlined operations, and consistent, off-the-shelf functionality.

Configurable. Scalable. Easily Upgradable. For all lines of business.

Duck Creek Suite is built on service-oriented, event-based architecture that allows you to respond quickly to meet demand and capitalize on new opportunities. Insurers of all sizes can take full advantage of the integrated functionality that enables agility and increases efficiencies.

From providing all-access customer data and new digital technology to delivering extended multi-geography capabilities, our suite supports your operations so that you can better serve your customers now and in the future.

Let us show you how our people, products and proven value deliver the Duck Creek Difference!
